Week 1 - Core - Worksheet | Unit Launch - AI as Workflows - Input, Process, Output

Name: _____ **Class:** _____ **Date:** _____

Sort each example card into the correct column and give a reason.

My two questions

Write at least two questions about AI as a workflow. Aim at least one at the input, the process or the output.

_____

_____

_____

_____

Sort it: input, process or output

Write each example in the right column and add one reason.

Example	Input / Process / Output	Reason
A typed question to a chatbot		
Grouping photos by what is in them		
A finished travel summary		

Our safe-use charter

Write one responsible-use rule for the class and why it keeps us safe.

Exit ticket

Exit ticket - Name one example, say whether it is an input, a process or an output, and explain why. Then write one question you still have.

_____

_____

Challenge (stretch)

Challenge - Pick a real UAE situation (for example a smart parking app or an Arabic-English translator). Describe its input, process and output, then predict two things a strong AI solution would need to get right. This stretches toward the Proficient idea of explaining how workflows structure AI systems.
