Week 3 - Core - Worksheet | Designing & Building a Workflow

Name: _____ **Class:** _____ **Date:** _____

Build your workflow

Fill in each box for the task you chose.

Box	What goes here
Input	
Process (AI step)	
Output	

Test and verify

Run your workflow twice and record what happened.

Run	Input used	Output	Matches the answer key? (tick or fix)
1			
2			

Explain it

Write one or two sentences saying why your workflow gave that output.

_____

_____

_____

Exit ticket

Name your three workflow steps in order, and write one reason your output could be wrong even if it looks confident.

_____

_____

Challenge (stretch)

Challenge (stretch): Add a fourth step so your workflow does two things in a row - a multi-step workflow - for example sort the books and then count how many are fiction. Show how the output of your first process becomes the input of the second.

_____

_____
